Subject: Lea Castle Site

Dear Mr Gammond,

as you are aware a meeting took place at Cookley village hall on Friday 22nd Feb. regarding the development of the Lea Castle site.

As a member of the local community living in The Crescent, I was very interested to hear what proposals the district council had in mind for the future of this site.

After listening to the plans and all of the discussions thereafter I would like to convey my wholehearted backing to the modifications of the old plans which is to include the construction of housing and residential

institutions.

I also have no problem with the inclusion of premium housing in the development of the site, as I can only see a benefit to the village by raising its profile and importantly drawing in potential business from the new

residents.

Yours Faithfully

G A Smith
