Subject: RE: Wyre Forest DC Site Allocation & Policies and Kidderminster Central Area Action Plan - Hearing Statements

Dear Mr Gammond

Thank you for that message enclosing the Hearing Statement on behalf of Mr Bowdler and Mrs Migniuolo which indicates some difference with District Council's suggested policy vis-à-vis affordable housing.

Separately from the above however I can inform you that the Town Council have literally today now reached agreement with the District Council as to the wording about which they had expressed concerns last autumn. That is now covered by a further amendment to the Minor Amendments Schedule dated October 2012 the full details of which can shortly be given to you by the Planning Policy Manager or her colleagues.

Having reached such common ground with the District Council I should be grateful if you would treat our representations as numbered SALPP 31 as applied to Policies SAL DPL1 and DPL2 as withdrawn.

Regards

Stephen Inman
