|---|------------------------------|----|

## 1 Introduction

**1.1** This report provides an update to the Wyre Forest Strategic Housing Land Availability (SHLAA) Reports published in 2009 and 2010. It provides a snapshot at 1<sup>st</sup> April 2012 of the latest position on all sites with residential permission together with those sites in the SHLAA that were deemed to have housing potential. It then considers those sites which have been put forward for consideration since the SHLAA 2010 update which meet the minimum size criteria – a potential capacity of 10 dwellings in Kidderminster and Stourport-on-Severn or 5 or more in Bewdley and the rural areas. Finally, a revised housing trajectory has been developed which shows the potential phasing of completions up to 2026.

## 2 Current Housing Land Provision

**2.1** Housing completions and commitments are now published twice a year in April and October. The latest available figures relate to the position at 1<sup>st</sup> April 2012. Detailed tables show residential completions, demolitions, and retained dwellings in conversions as well as affordable completions.

**2.2** Net completions during 2011/12 (that is net of retained dwellings and demolitions) totalled 185 dwellings against an average of 209 per annum since 2006. Gross completions were 234 dwellings during 2011/12. The average annual number of gross completions has been 235 since 2006. There was a 50% increase in the number of completions from the previous year with a number of long running developments finally completing.

**2.3** There were 420 new residential permissions in 2011/12. This was much higher than the 193 new permissions the previous year, and was mostly due to 2 large sites in the Churchfields area of Kidderminster coming forward for redevelopment.

**2.4** By the end of March 2012, 1,254 completions (net) had taken place in the District since 1<sup>st</sup> April 2006 with a further 1,245 dwellings (net of demolitions) with permission. Allocated sites in the Adopted Local Plan had the potential to provide another 136 dwellings.

### Net Completions of Dwellings 2006-12

| Year               | Number of dwellings completed (net) |
|--------------------|-------------------------------------|
| 2006/07            | 297                                 |
| 2007/08            | 192                                 |
| 2008/09            | 239                                 |
| 2009/10            | 191                                 |
| 2010/11            | 150                                 |
| 2011/12            | 185                                 |
| Total              | 1,254                               |
| Average for period | 209                                 |

**2.5** Based on the housing requirement of 4,000 (net) new dwellings as set out in the Wyre Forest District Adopted Core Strategy (December 2010) and the assumption that all outstanding commitments are built, this would mean a net remaining requirement of 1,501 (including currently allocated sites). It should be noted that the initial SHLAA was based on the RSS Preferred Option housing target of 3,400 dwellings. However, following the Panel Report in September, the Council decided to incorporate the higher figure of 4,000 dwellings in the Core Strategy. Commitments include the 231 dwellings under construction at 1<sup>st</sup> April 2012. 84% of total commitments have full or reserved matters consent and therefore have no planning constraints to prevent their full implementation. 71% of these commitments are on previously developed land. 72% of completions during 2011/12 were also on previously developed land. It should be noted that, following revisions to PPS3 in June 2010, garden land is no longer classified as previously developed land.

## 3 Update on SHLAA sites

**3.1** The following table sets out the position as of 1<sup>st</sup> April 2010 on the SHLAA sites which were deemed to be suitable for housing. Eight of the sites have been completed. The economic downturn has led to some schemes being revised during the course of construction with developers favouring houses over flats. A number of schemes are currently mothballed with developers in administration. Several permissions have come up for renewal so implementation is now likely to slip.

### Update on SHLAA Sites

| Site ref | Location                  | Position at 01/04/12   |
|----------|---------------------------|--|
| B001     | Load Street car park      | Scheme unlikely to be brought forward in same format.  |
| S005     | Tan Lane School           | School relocated to site of former Lickhill Middle School in January 2012. Site to be allocated for mixed uses in Site Allocations and Policies DPD.         |
| S006     | TP Toys                   | Much of site now vacant. Site to be allocated for mixed uses in Site Allocations and Policies DPD.   |
| S008     | Vale Road Garage          | Sheltered housing scheme for 45 retirement flats due to complete summer 2012.  |
| K011     | Former Telephone Exchange | No extant permission but still developer interest. Site to be allocated in Site Allocations and Policies DPD.  |
| S012     | Martley Road              | Site completed.  |
| K015     | 78 Mill Street            | Site currently vacant. Revised scheme for 13 dwellings on rear of site approved June 2010.   |
| S017     | Baldwin Road              | Planning permission has now lapsed on this Adopted Local Plan allocated site. Forms part of wider site to be allocated in Site Allocations and Policies DPD. |
| B018     | Blackstone Barns          | Conversion works due to complete summer 2012.  |
| S020     | Carpets of Worth          | Application for mixed use development to include 159 dwellings - delegated authority to approve April 2012.  |
| K024     | Sutton Reservoir          | Renewal of outline approved September 2009 for 5 years. May be brought forward sooner.   |
| K028     | Hérons Nursing Home       | 24-bed dementia unit now complete so site is no longer available.  |
| B034     | Bewdley Primary School    | Scheme for 46 affordable units completed end of 2011.  |
| R036     | The Manor House Wolverley | Site completed   |
| K041     | Rifle Range shops         | Site to be allocated for redevelopment in Site Allocations and Policies DPD.   |
| K042     | Hurcott Road maisonettes  | Remaining maisonette blocks now demolished. Approval for 97 dwellings October 2011. On site Spring 2012.   |
| K050     | Chester Road Bowling Club | Appeal for 26 affordable dwellings allowed August 2011. Unlikely to proceed.   |
| K054     | Georgian carpets          | Bellway Homes scheme approved for 223 dwellings December 2011. On site January 2012 with 2 showhomes complete by end of March.                               |
| K061     | Harriers Trading Estate   | Permission for 28 dwellings granted April 2009 - permission due to lapse.  |
| R066     | Butts Lane Depot          | New owner looking to put in renewal application summer 2012.   |

| Site ref | Location                                   | Position at 01/04/12  |
|----------|--|---|
| K074     | Blakebrook School and County Buildings     | School expected to relocate to new complex in September 2014. Site to be allocated for mixed uses in Site Allocations and Policies DPD.   |
| S078     | Tesco & Bedland Stores, Lombard Street     | Tesco redevelopment on Carpets of Worth site has detailed permission and highway works are underway prior to construction of store. Site to be allocated for mixed uses in Site Allocations and Policies DPD. |
| S085     | Manor PH                                   | Site cleared. Planning approval for 14 dwellings (June 2010) or care home (April 2012).   |
| K087     | 108/109 Bewdley Hill                       | Site sold early 2012. Reserved matters application expected shortly.  |
| S088     | Midland Industrial Plastics                | Site to be allocated in Site Allocations and Policies DPD.  |
| K089     | King Charles I School                      | Following withdrawal of BSF funding, site is likely to remain in educational use.   |
| K090     | Sutton Arms PH                             | Site cleared early 2010. Reserved matters application for 14 dwellings approved November 2010.  |
| R095     | Blakedown Nurseries                        | Planning application for 42 dwellings received early 2012.  |
| R104     | Land off Sebright Road, Fairfield          | Planning now approved for 10 affordable houses - to start April 2012.   |
| S106     | Rear of 33 Baldwin Road                    | Site completed.   |
| R115     | Oxbine, Callow Hill                        | Revised scheme dismissed at appeal as not in conformity with Core Strategy. Up for sale.  |
| K134     | Muskateer PH                               | Site to be allocated in Site Allocations and Policies DPD.  |
| K138     | Land off Puxton Drive                      | 71 dwellings under construction - due to complete end 2012.   |
| R143     | Garage site, The Green, Chaddesley Corbett | Permission granted for 4 affordable units December 2011.  |
| K146     | Cheshires, Coventry Street                 | Much of building now empty. Site to be allocated in Kidderminster Central Area Action Plan DPD.   |
| K156     | Zanzibars, Castle Road                     | Site completed end March 2012.  |
| K157     | Franchise Street                           | Revised scheme for 74 units approved. Site completed March 2011.  |
| S159     | Lichfield Basin                            | Site completed end March 2012.  |
| R161     | The Terrace, Clows Top                     | Site to be allocated in Site Allocations and Policies DPD together with adjoining site.   |
| S208     | Wilden Primary School                      | School continues to operate from this site with no immediate plans to relocate and release site.  |
| K209     | Sion Hill Middle School                    | Small area of site back in use as educational offices. Scheme to convert main school buildings to education training and conference centre not implemented.   |
| K210     | Former British Sugar Site                  | Outline planning application for phase 1 scheme for mix of uses including 250 dwellings received Spring 2012.   |
| K211     | Sladen School site                         | No detailed scheme drawn up for cleared site. Site to be allocated in Kidderminster Central Area Action Plan DPD.   |
| K214     | Brinton's Offices, Exchange Street         | Offices vacated and up for sale. Site to be allocated in Kidderminster Central Area Action Plan DPD   |

### 4 New Sites put Forward for Consideration

**4.1** There have been no sites put forward by landowners for consideration since the last update other than to suggest that the haulage yard at Clows Top which adjoins site R161 be included as part of a larger site. The Site Allocations and Policies and the Kidderminster Central Area Action Plan Development Plan Document publication drafts contain a small number of sites which have not previously been assessed for their housing potential. The majority of these are proposed for allocation as mixed use sites with an element of housing.

**4.2** In Kidderminster town centre there is the potential to bring further residential uses into Lion Street and Lion Square (see policies KCA.EG6/7 in the Kidderminster Central Area Action Plan) as part of a wider regeneration agenda. In Stourport-on-Severn, it is proposed to allocate the area around the Swan Hotel and Working Men's Club for a mix of uses including residential above ground floor level and there is developer interest in redeveloping the former Lucy Baldwin Hospital site for housing. In Bewdley, it is proposed to allocate two small sites in Lax Lane and the High Street to include residential uses. At Clows Top, it is proposed to enlarge site R161 in order to include the adjoining haulage yard.

**4.3** Site assessment sheets for these sites can be found at Appendix A.

## 5 Revised Phasing and Housing Trajectory

**5.1** The housing trajectory has been updated to take account of any revisions to existing residential permissions as well as new SHLAA sites. A number of housing sites have had their planning permissions renewed in the last 12 months and the expected completion dates have had to slip accordingly. The revised trajectory can be found below. Together with the 1,254 dwellings (net of demolitions) which have been completed since 1<sup>st</sup> April 2006, this gives a total capacity of approximately 4,400. The Adopted Core Strategy has a requirement for 4,000 dwellings (net of demolitions) 2006-2026

**5.2** The housing trajectory demonstrates that the target of 4,000 dwellings could be reached during 2020/21 if all the sites come forward as predicted. A number of employment sites which are programmed to come forward for redevelopment later on in the plan period are currently occupied. Following the withdrawal of Building Schools for the Future funding, the redevelopment of the King Charles I School in Kidderminster for housing (capacity approximately 250) is now unlikely to proceed and this site has been removed from the trajectory calculations. Approximately 60% of dwellings will be in Kidderminster, 30% in Stourport-on-Severn and 10% in Bewdley and the rural areas.

### Phasing of Housing Development

| Phasing Period | Split Between Settlements   | No. Of Dwellings (Net) |
|----------------|---|------------------------|
| 2012-16        | Kidderminster 800<br>Stourport-on-Severn 400<br>Bewdley 75<br>Rural 200 | 1,475                  |
| 2016-21        | Kidderminster 850<br>Stourport-on-Severn 425<br>Bewdley 25              | 1,300                  |
| 2021-26        | Kidderminster 225<br>Stourport-on-Severn 175                            | 400                    |

**5.3** The National Planning Policy Framework (March 2012) states that local planning authorities should identify and update annually a supply of specific deliverable sites sufficient to provide 5 years worth of housing against their housing requirements with an additional buffer of 5%. The Adopted Core Strategy has a requirement for 200 dwellings per annum. A five-year supply with an additional 5% would equate to 1,050 dwellings. As can be seen from the above trajectory, the predicted housing supply for Wyre Forest District over the next 5 years is just over 1,700 dwellings. The majority of these dwellings already have planning permission in place.

## 6 Viability Considerations

**6.1** The National Planning Policy Framework (NPPF), published in March 2012, calls for a balance to be struck between sustainable development which benefits the local community, and realistic returns for landowners and developers in so much that a development is commercially viable.

**6.2** An individual development can be said to be viable if, after taking account of all costs, the scheme provides a competitive return to the developer to ensure that development takes place and generates a land value sufficient to persuade the land owner to sell the land for the development proposed. If these conditions are not met, a scheme will not be delivered.

**6.3** All sites in the SHLAA have been assessed to ensure that they are suitable, available and achievable. As part of the evidence base for the Core Strategy, the District Council commissioned GVA Grimley to undertake viability assessment on a sample of SHLAA sites. This study was published in November 2009. A number of issues were looked at including contamination, flooding and housing density. A number of the sites in the SHLAA are likely to be not only contaminated but also lie within flood zone 2 and a few within flood zone 3. This is especially true of those sites within the town centres. The benefits to the local community of bringing such sites forward for redevelopment are high. However, the viability of such sites is often quite marginal for the developer and landowner.

**6.4** The NPPF stresses the need to ensure that the sites and scale of development identified in a Local Plan should not be subject to such a scale of obligations, standards and policy burdens that cumulatively this threatens the plan's overall ability to be developed viably. The NPPF also requires that Local Plans are deliverable and realistic.

**6.5** The Site Allocations and Policies DPD contains a specific viability policy, SAL.DPL3. This policy provides for negotiation over the proportion and type of affordable housing, to take account of any particular costs associated with the development and other viability considerations; the relative priority of other planning considerations; and the need to achieve mixed and balanced communities.

## 7 Conclusion

**7.1** This report provides a snapshot picture of both the committed and potential supply as at 1<sup>st</sup> April 2012. Completion figures and new planning applications for residential development will be fed into the trajectory model and phasing of sites will be adjusted if required. As circumstances change it is possible that more sites will come forward for alternative uses including residential.

**7.2** The Annual Monitoring Report will also include an updated housing trajectory based on the situation as of October 1<sup>st</sup>. This is published at the end of December and will be available to view on the District Council's website.

# A Site Assessment Sheets

SITE REF: K300 LION STREET

|  |                                |   |  |
|--|--------------------------------|---|--|
| <b>Settlement:</b><br>Kidderminster  | <b>Site Ref:</b> K300          | <b>Grid Ref:</b> 383402 276755  | <b>Site Area:</b> 0.76 Ha                  |
| <b>Site Address:</b> Lion Street, Kidderminster<br><b>Ward:</b> Greenhill  |                                |   | <b>Within or adjoining settlement:</b> Yes |
| <b>Current or previous use:</b> Small specialist shops , youth centre and car parking  |                                |   | <b>Brownfield:</b> Yes                     |
| <b>Site Description:</b> group of specialist shops, small hotel, youth centre and car park adjacent ring road; fire damaged shops on Coventry Street |                                |   |  |
| <b>Ownership:</b> private, WFDC and Worcestershire County Council  |                                |   |  |
| <b>Planning History:</b> none of relevance - site to be allocated in KCAAP   |                                |   |  |
| <b>Physical Characteristics</b>  | <b>Vehicular access</b>        | Reasonable - potential redevelopment of adjoining site would give direct access off ring road                         |  |
|  | <b>Flood risk</b>              | No  |  |
|  | <b>Contamination</b>           | Unlikely  |  |
|  | <b>Topography</b>              | Flat  |  |
| <b>Environmental impact</b>  | <b>Character/visual impact</b> | Would look to retain buildings to north of Lion Street. Redevelopment of remainder of site would improve street scene |  |
