Subject: RE: KCAP/SALP Main/Minor Modifications (PD8942)

Mr Burley

I refer to your letter dated 13 February.

As you are aware I referred your letter to the Inspector who asked the Council for their comments. In response, the Council explained that it did review its position following the close of the hearing sessions and has provided a comprehensive list of modifications. As you are aware, these modifications currently form the basis of the 6 week consultation process which commenced on 14 February 2013.

The Council was unable to discuss the modifications with all the interested parties and attendees of the Hearing sessions due to the limited time frames involved. However the Council is of the opinion that a full and frank debate was held during the examination where the views of both parties were clearly set out.

The Council has made suggested modifications to policies KCAPMA19, KCAPMA20 and KCAPMA21.

Whilst it is regrettable that you did not have a further opportunity to discuss any modifications with the Council, the Inspector wishes to assure you that she will give full consideration to your representation in respect of the main modifications suggested

Kind Regards

Bradley Gammond
